

# FLYRAL®

DIPTERA FOOD BAIT FOR USE AS AN ADDITIVE FOR INSECTICIDE TREATMENTS

## What is it? What is it for?

Flyral® is a formula based on hydrolyzed proteins. This product acts as a food attractant of adult diptera (flies and mosquitoes) and serves as a base material for mixing with authorized insecticides in the preparation of insecticidal baits.

## Benefits

- High compatibility in mixtures with insecticides.
- Effective attractant of adult diptera.
- Product suitable for its use in organic farming according to EU standard 2021/1165 and NOP regulation. Control Ecocert SA F-32600.

## DOSE

### Soil treatment:

1.25% with 0.5 liter of spray volume per tree.

### Air treatments:

2Kg/hL with an expense of 20L/ha of water volume.

## COMPOSITION

	(W/W)	(W/V)
Hydrolyzed proteins	36%	42.1%

Flyral® is registered as a Plant Protection Product in several countries.
